

## Southside Family Nurturing Center News

### Annual Benefit at Surly Brewing Sun. Sept. 30th at 5:30pm

Join us in our work for health and education equity across race and income in our community. Register: <https://www.ssfnc.org/surly>

### Thanks to the McCormacks for the Pony Party!

To celebrate the last week of school, longtime weekly volunteer and donor Jim McCormack organized his family and friends to put on a pony party for the children. Thank you to Jim for all you do to support Southside's mission and bring joy to the children in our program. He is pictured with his sister Eileen McCormack in the photo below.

### SSFNC's Class of 2018

Seven children graduated from Southside Family Nurturing Center last month with bright futures for school and beyond. SSFNC is grounded in the belief that every child, parent and family has the capacity to reach positive short-term goals and long-term

outcomes, given a community of nurturing, love, education and support.

Children who receive SSFNC's therapeutic early childhood education, and whose parents receive ongoing support through home visiting are more likely to have the social, emotional and cognitive skills necessary to reach their personal potential in school, at home, and in the community than may otherwise be possible.

Congratulations to our class of 2018! We wish you all the best as you head into Kindergarten.

## Back to School Sept. 10th

We are eager to welcome children back to class from summer break next week and we look forward to introducing the teaching staff in the next newsletter. They have been working hard during break to prepare for them!

DONATE >

Your gift provides vital, dual generation support to families in the Phillips Community, including therapeutic early childhood education and home visiting/family support services.

Donate needed supplies and materials for our classrooms from our [Amazon Wishlist](#).

## Thank You for Contributing to the Kitchen Range

Due to the generosity of those who read and responded to our need for a new kitchen range, we raised the \$6,000 needed to purchase the industrial range pictured below. The children will return from break to hot, healthy breakfasts and lunches next week THANKS TO YOU!
